## Feedback from IHIMA25 attendees:

Continue what you are doing! Everyone does a great job and works hard on this, and I appreciate it!

Loved seeing old friends I have not seen for years!

I enjoy the panel discussions.

My appreciation goes to the committee that puts on this event as I'm sure it takes many hours to coordinate, and it's well received. Thank you!

I really enjoyed it & I had not attended in person for several years and I thought it was planned & executed very well!

Always enjoying connecting with past co-workers or classmates.

Great location, and great content this year. Good job with speaker selection.

Love the location. Content was also great; applicable to what is going on today in the world; so I really enjoyed that too. Also liked hearing the good things to come from AHIMA.

Always find the law sessions helpful. Both Mark Swearingen's and Federal Laws Panel were good.

Excellent content!

Mark Swearingen and the Legislative/Regulatory was outstanding!

I learned about Denials Prevention, the latest AHIMA updates, and the latest legal issues.

Brian Donahue did a great job!

The "Denials Prevention & Management" session was great!

AI uses in HI +CAC. Surviving Payor audit reviewing all the different entities that are auditing, and the names of the audits was mind blowing.

The Payor Audit session was very informative and much needed!

I learned something new in every session I attended.

I liked the emphasis on current federal admissions and its impact on our career field.

I did not know that much about AI, so I learned a lot attending those sessions.

The legislative panel was greatly selected and trustworthy. They all brought a great deal of knowledge and would love to see them back again!

It was wonderful!!!
